

Endurance Racing in Kuwait

by Noelle Alyagout

Here is testimony to the wonderful bridle which you have designed out of sheer love and deep concern for the horse.

My lovely mare Ginelli, 18 years old, and I have just completed our first Endurance race (37 miles in the Kuwaiti desert, 2009). She took **SECOND** place despite very harsh weather conditions. She was the only **BITLESS** horse in this race and the only truly happy one too! I never had to use strong hands to get her under control and we were going in an easy, relaxed manner and on a loose rein.

The gentleman riding in the background of the photograph has since purchased your Bitless Bridle too and his Arabian gelding Topaze is very thankful to him for it!

My mare has been ridden in this bridle since about 6 months now and we are extremely happy with it. As many users say: "The darn thing works better than a bit!"

I find that it is also excellent for bringing my horse on the bit and doing a bit a dressage.

THANK YOU, DR COOK, FROM THE BOTTOM OF OUR HEARTS!
